

	2025	2024
Products	112,887	109,633
Services	82,314	71,050
Total	195,201	180,683

Products gross margin increased during 2025 compared to 2024 due primarily to a different product mix and a higher proportion of the total sold through the direct channel, partially offset by the weakness in foreign currencies relative to the U.S. dollar during the period. The Company believes the trend is likely to continue into the following fiscal year.
